

# NEW YORK CITY HURRICANE EVACUATION ZONES

### How to Use This Map\*

1. Determine whether you live in an evacuation zone by using the Hurricane Evacuation Zone Finder at [www.NYC.gov/hurricanezones](http://www.NYC.gov/hurricanezones), calling 311 (TTY: 212-504-4115), or consulting this map. If your address falls into one of the City's hurricane evacuation zones, you may have to evacuate during a hurricane.
2. The City strongly encourages evacuees first to seek shelter with friends or family located outside the evacuation zones.
3. If you cannot stay with friends or family, use the Finder, call 311 (TTY: 212-504-4115), or use this map to identify which evacuation center is most appropriate for you. NOTE: Not all evacuation centers are accessible by all modes of transportation. Visit the MTA's website at [www.mta.info](http://www.mta.info) or call 718-330-1234 for the latest transit information.

\*Evacuation information is subject to change. For the latest information, visit [NYC.gov/hurricanezones](http://NYC.gov/hurricanezones) or call 311 (TTY: 212-504-4115)

### Hurricane Evacuation Zones

#### ZONE A

Residents in Zone A face the highest risk of flooding from a hurricane's storm surge. Zone A includes all low-lying coastal areas and other areas that could experience storm surge from ANY hurricane making landfall close to New York City.

#### ZONE B

Residents in Zone B may experience storm surge flooding from a MODERATE (Category 2 and higher) hurricane.

#### ZONE C

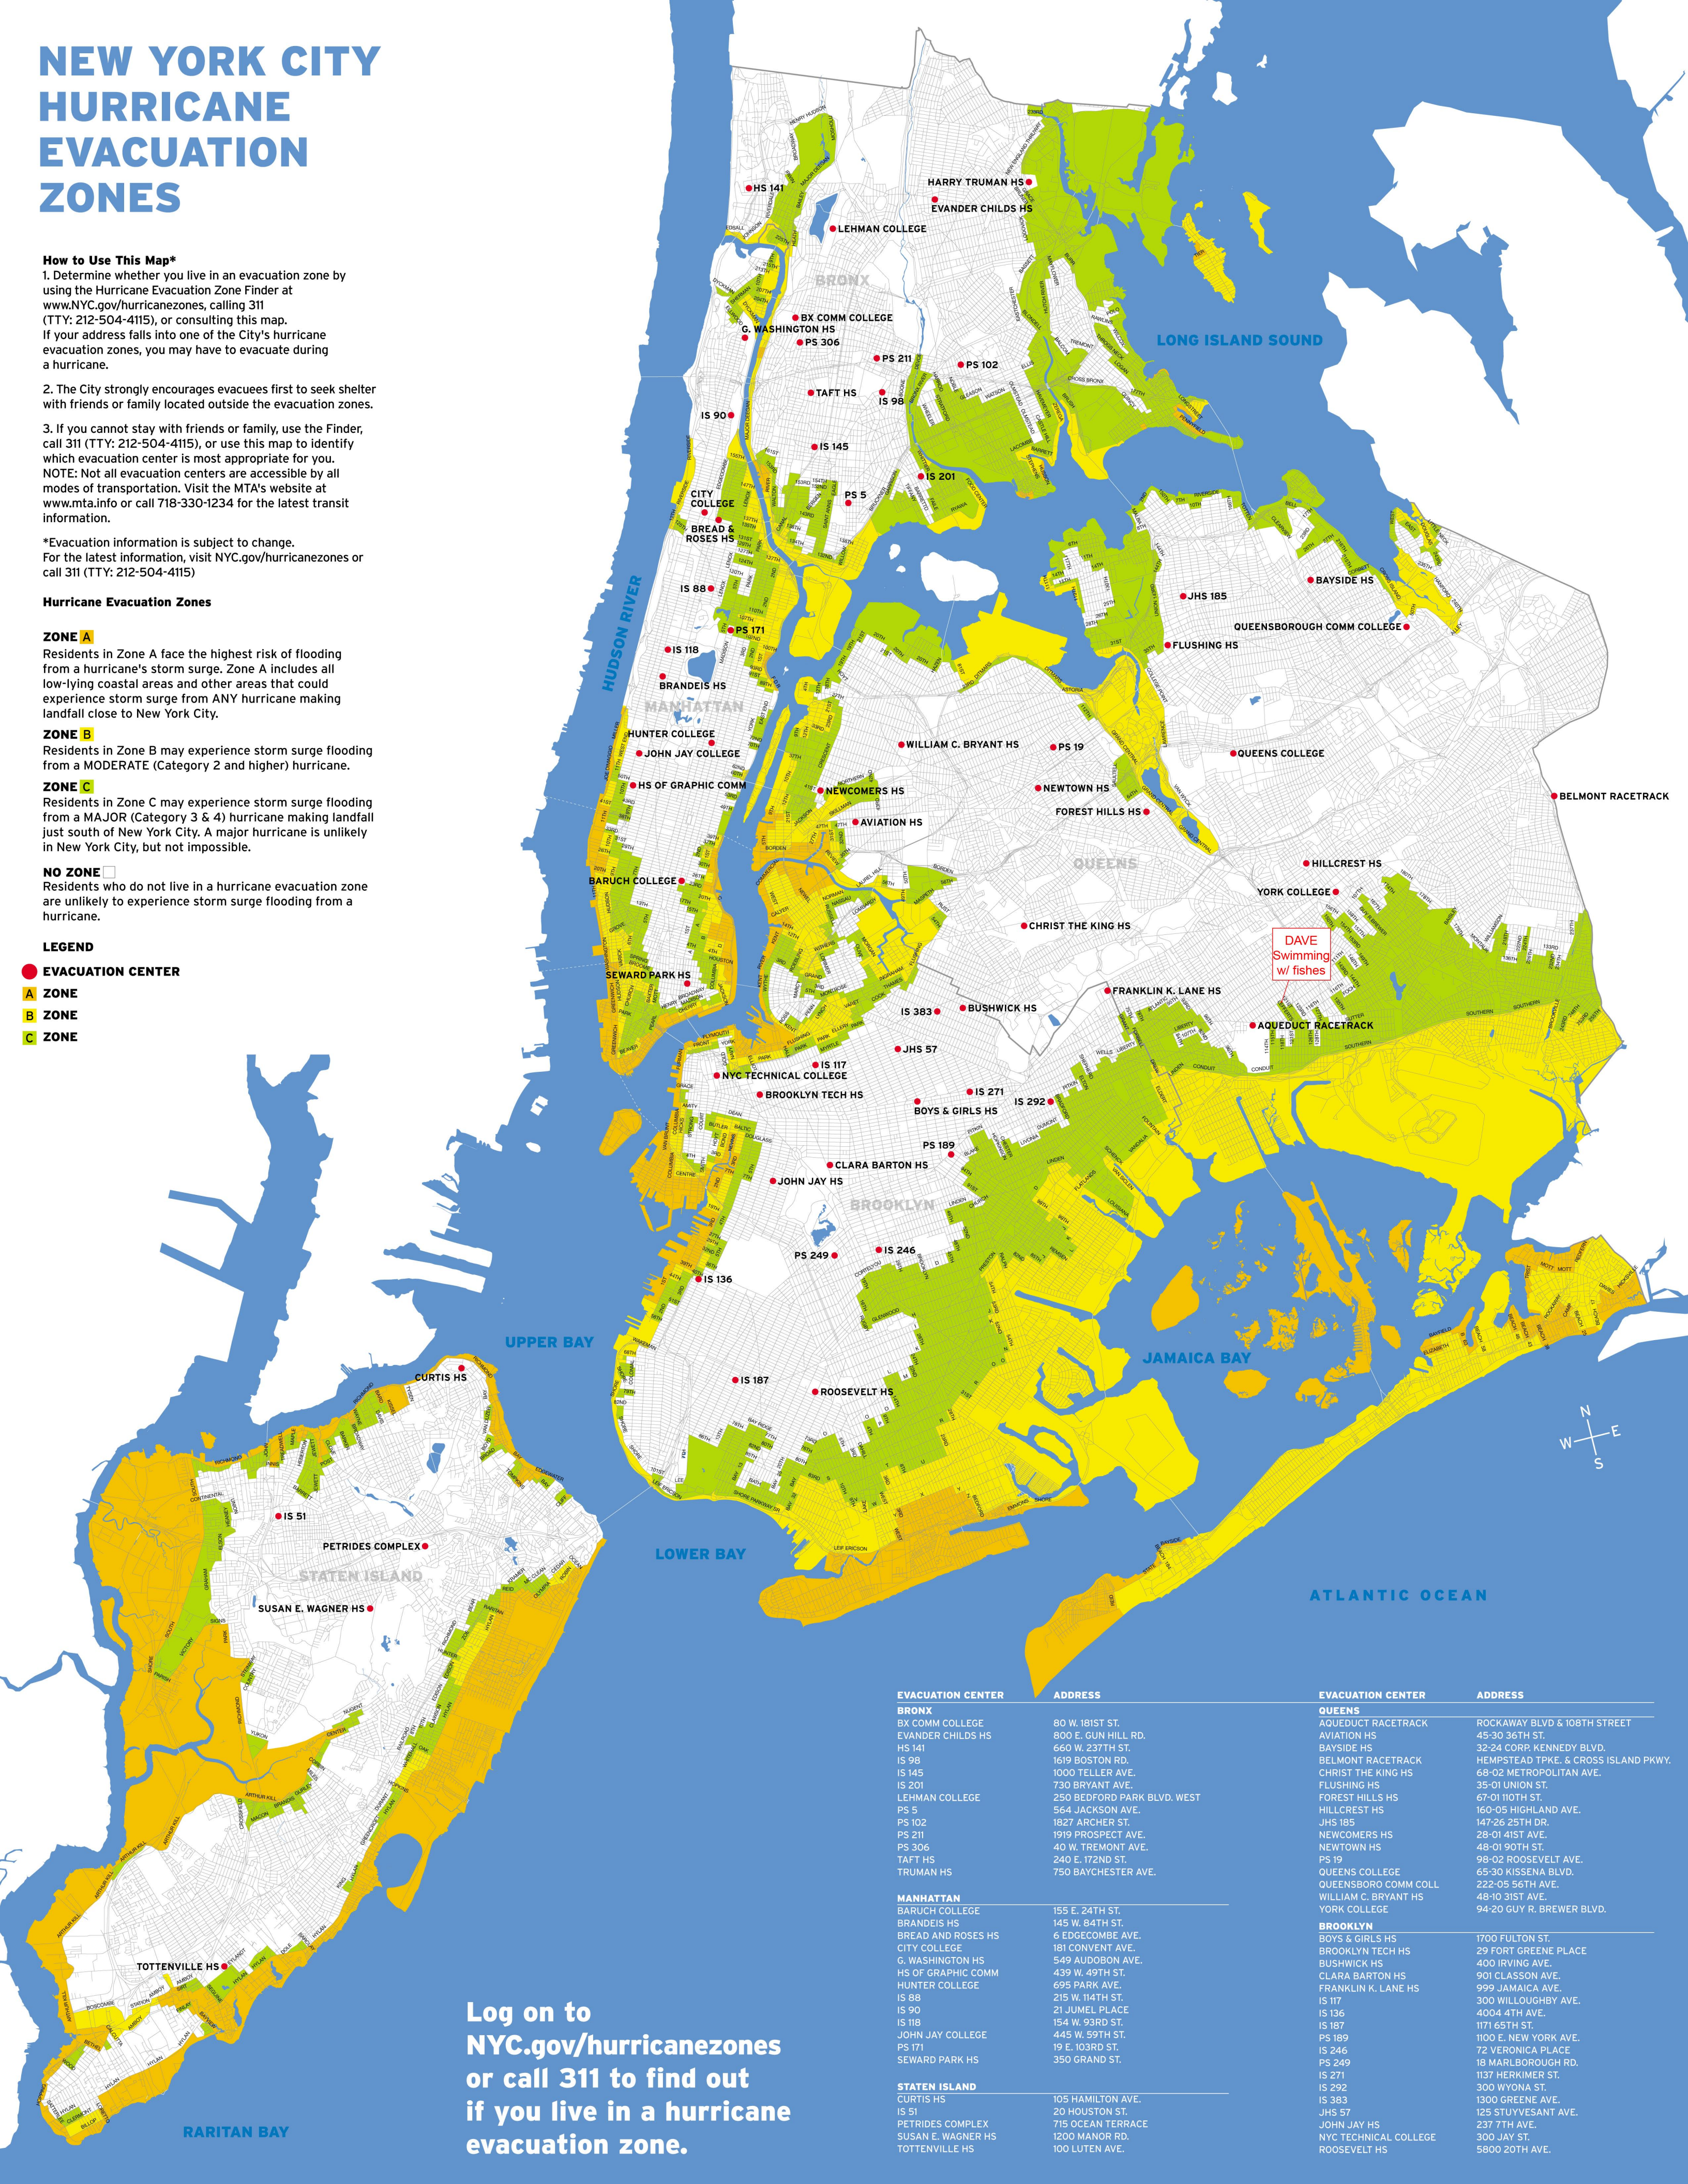

Residents in Zone C may experience storm surge flooding from a MAJOR (Category 3 & 4) hurricane making landfall just south of New York City. A major hurricane is unlikely in New York City, but not impossible.

#### NO ZONE

Residents who do not live in a hurricane evacuation zone are unlikely to experience storm surge flooding from a hurricane.
